

## CORONAVIRUS – GROUP STATEMENT

The health and safety of our Customers and Staff is our absolute priority and we are taking every possible measure to ensure our premises are clean and disinfected to the highest possible standards.

Our dealerships, from Cairns to Hobart are open for business. These premises are cleaned and sanitized daily. Over the past two weeks, we've added increased cleaning frequency to our showrooms, service departments, parts departments, and displayed vehicles.

We have posters to remind all staff of the importance of maintaining good hygiene practices. Staff have been provided with the appropriate training and education to ensure cleaning and disinfection processes are applied to all vehicles and contact points in their dealership. We will continue to stay informed and proactive in protecting and informing our Customers and Staff.

We will adapt to any situation and have already introduced sales department services such as:

- off-site test drives,
- video vehicle demonstrations, and
- off-site deliveries.

Our Service Departments have introduced driveway pick-up and drop-off, and are limiting face-to-face contact with Staff. We also offer off-site vehicle pick-up and drop-off and our Service Department Staff are happy to discuss any other requirements you may have.

Our entire team is ready to serve you – in dealerships, at your premises, or on-line - so let's all keep the wheels turning.

Thank-you for your continued support and trust in the Tony White Group to keep you, your family, and the Australian community motoring safely.

***Family Owned. Customer Driven.***
